### Summary

#### ABSTRACT

The Évaluation Diagnostique des Compétences de Français et de Mathématiques au CE1 has been administered by the Ministère de l'Éducation Nationale et de l'Enseignement Technique since 1995 to grade 3 (ISCED 1) students in public, private and community schools. It has been administered four times at varying frequencies. The next administration is planned in 2016.

Students are assessed twice during the school year: in 2011, tests were administered in January and in May.

The assessment is low-stake for students.

The Évaluation Diagnostique des Compétences de Français et de Mathématiques au CE1 is a written assessment, administered face-to-face and delivered through paper-pencil tests. All test-takers are presented with the same cognitive booklets or tests, which are aligned with the national curriculum.

The assessment serves the following purposes:

- sub-national level monitoring of learning outcomes
- monitoring education quality levels
- planning education policy reforms

# Sampling

## Sampling Procedure

---

The sample is drawn using a stratified two-stage sampling design. The DREN (Direction Régionale de l'Education Nationale) are grouped to constitute strata. In the first stage, a sample of schools is selected within each stratum using probability proportional to size. In the second stage, a fixed number of students are randomly selected from each school. All selected students are sampled from the same classroom. In the case where a school has more than one classroom at the targeted grade, one classroom is randomly selected first.
